Over for sewing instructions,
one size fits all. →

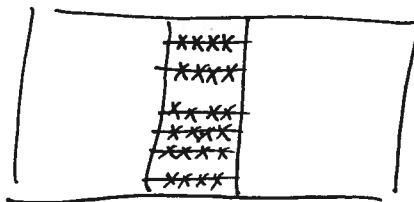

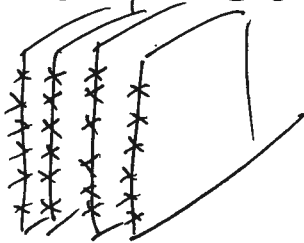

4) Hold your four signatures together by the spine, and make 6 marks across → with a pencil.

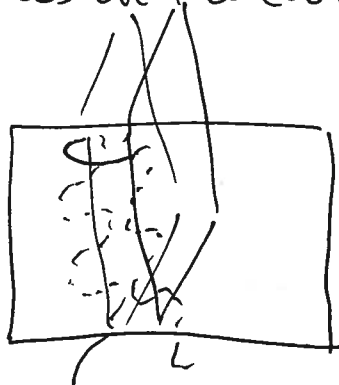

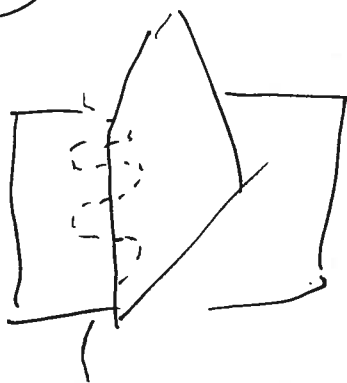

5) Use those marks as a guide and draw similar lines on the inside of your cover spine →

6) Then, use a paper piercer to pierce your signatures + the cover spine (on X)

7) Use the holes in the cover spine as a guide to sew in each signature separately (sig sews directly to the tape).

Start on the outside of the book, at the bottom, and sew continuously up until you come out at the top. Then sew across to the next hole in the tape and sew down to include the next signature, and so on...

Remember: Keep an even number of holes + an even number of signatures for ultimate awesomeness. 😊

And don't forget to eat your Wheaties!
